

Minutes of Meeting 2/20/2026

Team discussed refinement of Figma designs, system architecture, and technical specifications for the project.

Finalization of selected AI tools and technologies to be used in development is required.

Agreement to set up boilerplate code for both:

- **Frontend**
- **Backend**

Plan to implement the first API call (potentially using Supabase or a custom backend solution) in the upcoming development cycle.

All team members must ensure that:

- **Project proposal,**
- **Minutes of Meeting (MoM),**
- **Relevant links, and**
- **Weekly status reports**
are consistently uploaded to the project GitHub repository.

A folder titled "Weekly Progress" will be maintained in the repository.

- **Each week's work will be documented in subfolders (e.g., **Week1**, **Week2**, etc.).**

Mandatory Contribution Requirement:

- **Each team member is expected to contribute a minimum of 10 hours per week toward project development and related tasks.**
